CIBCULAR.

In accordance with instructions from Brigadier General D. H. Rucker, Chief Quartermaster, Depot of Washington, I have placed schooners at Upper and Lower Cedar Points, in the positions occupied by the light boats, previous to their destruction by the rebels.

From sunset until sunrise a light will be swung from each of the schooners. The reason given by captains of vessels, chartered and owned by the United States Quartermaster Department, for anchering in the Petomac river at night, was, that they feared that they would run their vessels aground if they attempted to run past the shoals after dark. The lamps placed on the schooners will give a light sufficiently strong to enable all pilots to pass up and down the river with safety, provided they govern themselves by the charts provided by United States Coast Survey.

From and after this date, no vessel propelled by steam will be allowed to anchor, excepting in such weather as by running the loss of the vessel or cargo might be endangered.

All masters of vessels are directed to report any neglect on the part of the parties on board of the light schooners, in not keeping their lights burning at all hours of the night.

A copy of this circular will be kept posted in the pilet house of every vessel ewned and chartered by the Government, plying on the Petomac rive

SERIOUS RAILROAD ACCIDENT. Six Persons Killed, Thirteen Wounded-Particulars of the Collision.

PHILADELPHIA, Sept. 21 .- A dispatch annonnees that a very serious accident occurred on the Pennsylvania Central railroad. It is not so complete in its details as a statement made to us by Mr. L. Convers. who was on the train and escaped without injury. The train left Pittsburg at 9 o'clock Tuesday night, and at half-past 4 a. m. ran into and demolished the engine, and forced the baggage car on top of the passenger car, which immediately caught

Our informant states that the foremost car, in which the loss was greatest, contained sixty passengers, and had but seven or eight who are known to have escaped. The doors were locked, the car was crushed and partially burned with the wreck of the baggage wagon. Coals from the locomotive fired the baggage car, which communicated to the passenger car, while the coals of the stove in that were aided by the explosion of the gas receiver. The car was burned with all on board, so that only the charred remains could be found,

beyond identification. The conductor was recognized. Six or seven still live. When he left there was such physical agony that nothing could be gleaned from the sufferers. The passengers in the third and fourth cars were saved without injury, but the cars were burnt. He thinks that more lives might have been saved if the doors of the car had been unlocked. The survivors, to the number of eighty-six, subscribed a statement to that effect.

At this late hour of the evening I shall not detain you, but assure you that I shall always endeavor to adhere to what I have said. Again I thank you, gentlemen, and permit me to bid you good

Sept. 20.—To-day is the opening of the State Fair The weather is deightful, but there have not been many visitors, Exhibitors have been busy all day, as things are delayed by an overcrowd on the railroad. The Printers' Union of this city has been practically disbanded. At its last meeting what was left of its members sensibly resolved to give up the contest for a uniform scale, and each printer was instructed to make the best bargain he could with his employer. This is as it should be. Hereafter wages will be adjusted in accordance with the state of the labor market. There will be no conflict between employers and employees, and the men will really make more money in the long run, because relieved of the enforced idleness of repeated strikes.
